A personal note

Written with AI from your chart

Dear Priya and Arjun, your match reads as a good one with areas to work on: 49 out of 100. That puts you where many happy couples sit. It is not a verdict; it is a map of where things come easily and where they will need attention.

Some things look strong. Money and prosperity are a real strength between you, and your chemistry is good and can grow with time. Arjun's chart carries a clear promise of marriage in the KP method.

Some things need care. Only 12 of the 36 gunas match, and Nadi dosha is present, which families traditionally read as a reason to look after health together. You are likely to disagree most about family and relatives, then about beliefs and values. Knowing that early is what lets you talk about it before it becomes a fight.

Your next good window together runs from November 2027 to January 2028. A window is a period, not a date; families usually choose the wedding muhurta within it.

If you read one chapter together, make it the family and everyday life chapter. Talk through it openly, and take from the remedies only what feels right to you both.

Birth charts and Navamsa, side by side

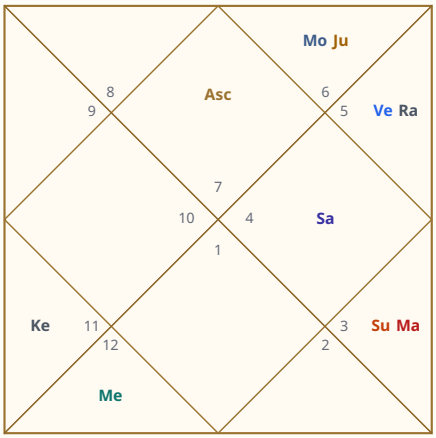

Priya Sharma

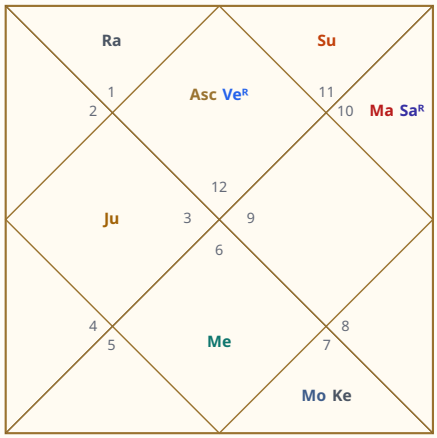

Arjun Mehta

	Priya Sharma	Arjun Mehta
Born	14 Mar 1996, 07:20	2 Nov 1994, 18:45
Place	Pune, Maharashtra	New Delhi
Lagna	Pisces	Taurus
Moon sign	Sagittarius	Libra
Nakshatra	Purva Ashadha, pada 2	Chitra, pada 3
Running period	Mars/Jupiter	Jupiter/Moon

Priya Sharma — Navamsa (D9)

Arjun Mehta — Navamsa (D9)

In each chart, the numbers are signs (1 Aries … 12 Pisces) and the top diamond is the 1st house. The 7th house, at the bottom, is marriage. The Navamsa shows the inner strength of a marriage.

Do our gunas match?

Guna Milan (Ashtakoot), the traditional 36-point check

12 of 36 gunas match. Below the traditional mark of 18

Each of the eight kootas, against its maximum.

Koot	Groom	Bride	Points	Meaning
Varna	Shudra	Kshatriya	0 / 1	Varna mismatch
Vashya	Manava	Manava, Chatushpada	2 / 2	Strong mutual attraction
Tara	Chitra	Purva Ashadha	1.5 / 3	Moderate destiny
Yoni	Vyaghra (Tiger)	Vanar (Monkey)	1 / 4	Physical friction
Graha Maitri	Venus	Jupiter	0.5 / 5	Planetary tension
Gana	Rakshasa	Manushya	0 / 6	Major temperament clash
Bhakoot	Libra	Sagittarius	7 / 7	Compatible relative positions
Nadi	Madhya	Madhya	0 / 8	Same constitution - health risks

Present: Nadi dosha, Gana dosha

These are the traditional warnings families check. Each has classical exceptions, and the Guna score is one method among several in this report: read it together with the KP, Navamsa and Porutham chapters.

Priya Sharma and Arjun Mehta: the traditional pass mark is 18. A low Guna score alone is not a reason to refuse a match, and a high one alone is not a promise.

A closer reading written with AI from the chart above

Priya and Arjun, 12 of 36 gunas match, below the traditional mark of 18. The score is pulled down by three kootas: Nadi, where you share the same Madhya nadi; Gana, where Manushya meets Rakshasa; and Graha Maitri, because Jupiter and Venus, your Moon-sign lords, are not natural friends.

Bhakoot, worth 7 points, is fully in your favour, and Vashya shows strong mutual attraction. In practice that means the pull between you is real, while temperament and daily rhythm ask for conscious effort. The Guna score is one method among several; the chapters that follow add the others.

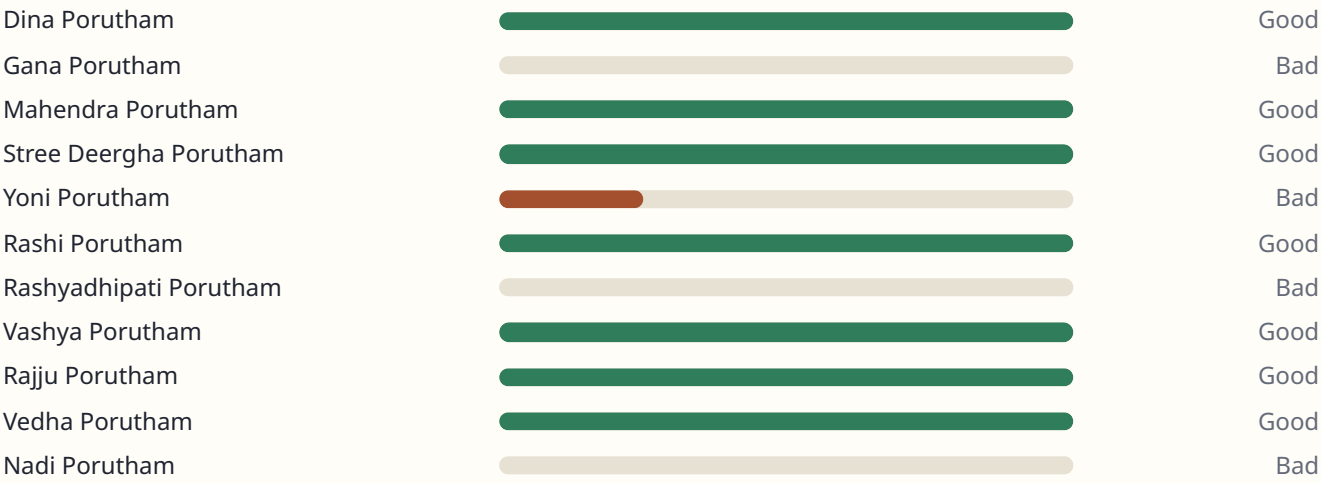

What helps

- Read the weak kootas as areas to talk about early, not as a verdict.
- If Nadi or Bhakoot dosha is present, families traditionally check the exceptions with an astrologer before deciding.

What does South Indian matching say?

Porutham: the star-to-star checks used in South India

25 of 45 points (56%). Challenging (Doshas present).

Check	Result	Points	Meaning
Dina Porutham	Good	3 / 3	Favorable health and longevity
Gana Porutham	Bad	0 / 4	Gana match: Manushya (Girl) and Rakshasa (Boy)
Mahendra Porutham	Good	1 / 1	Stable progeny and wealth
Stree Deergha Porutham	Good	1 / 1	Prosperous life for the wife
Yoni Porutham	Bad	1 / 4	Physical compatibility (Monkey & Tiger): Poor - Challenging
Rashi Porutham	Good	7 / 7	Harmonious family growth
Rashyadhipati Porutham	Bad	0 / 5	Planetary friendship between Jupiter and Venus
Vashya Porutham	Good	2 / 2	Good mutual attraction
Rajju Porutham	Good	5 / 5	Longevity of partners is secured
Vedha Porutham	Good	5 / 5	No hidden obstacles detected
Nadi Porutham	Bad	0 / 8	Same Nadi: Potential health/progeny issues

A closer reading written with AI from the chart above

South Indian matching gives you 25 of 45 points. The checks that pass include Dina for health, Mahendra for family growth, Rajju and Vedha, which are traditionally the most important for a long marriage.

Gana, Yoni, Rashyadhipati and Nadi do not pass. They repeat the Guna Milan picture: different temperaments and the same nadi. Because Rajju passes, many South Indian families would weigh these failed checks as areas for care rather than a reason to stop.

Is Manglik dosha a problem for us?

> **One of you is Manglik. Families usually check the cancellation rules and the rest of the match before deciding.**

- Priya Sharma is not Manglik.
- Arjun Mehta is Manglik.

For the two of you together: Low (Potential Clash).

About one person in three is Manglik, and many cases are cancelled by other placements. It describes a temperament, not a fate.

A closer reading written with AI from the chart above

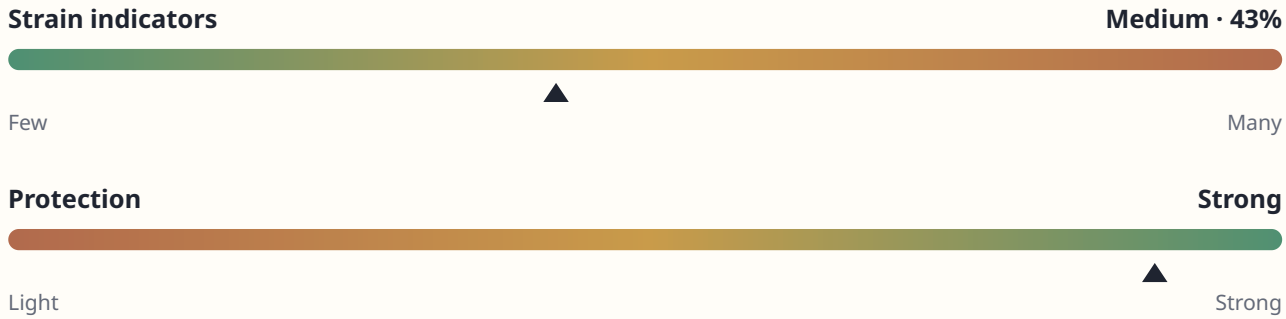

Arjun is Manglik and Priya is not, which tradition reads as a possible mismatch of energy: one of you more forceful or restless, the other steadier. On this point your match is rated low.

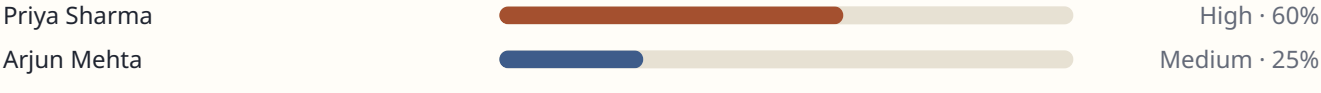

In practice, this asks for an outlet for Arjun's Mars energy, such as sport, demanding work or shared projects, and an agreed way of cooling down during disagreements. Families who weigh Manglik dosha usually check the cancellation rules with an astrologer before deciding.

Will this marriage last?

Strain and protection in both charts, and the years that need care

> **Strain indicators across both charts: Medium (43%). Protection: strong. These describe pressure points to manage, not how your marriage turns out.**

Strain indicators in each chart on its own.

Stability and foundation: 64 / 100.

What each method says

- **Parashari (D1)**
  Strain indicators: High for Priya Sharma, Medium for Arjun Mehta
- **Navamsa (D9)**
  Navamsa match 35 / 100. Challenges present
- **KP**
  Priya Sharma: marriage Complicated; Arjun Mehta: marriage Promised
- **Jaimini (Upapada)**
  UL in Aries indicates a stable marriage with spouse from dynamic, action-oriented background. UL in Cancer indicates a stable marriage with spouse from emotional, nurturing background.

What creates strain — Priya Sharma

- 7th Lord in 6th, 8th, or 12th house: Marriage significator in dusthana houses indicates conflict, obstacles, or losses
- 2nd Lord in 12th house: Family harmony compromised
- Rahu in 7th house: Separative influence on marriage
- 7th Lord in 12th house: Potential for loss or "Marana" energy affecting partnership

What creates strain — Arjun Mehta

- Venus in 6th, 8th, or 12th AND afflicted: Love and relationship karaka in difficult houses
- 7th Lord is debilitated: Marriage significator lacks structural strength

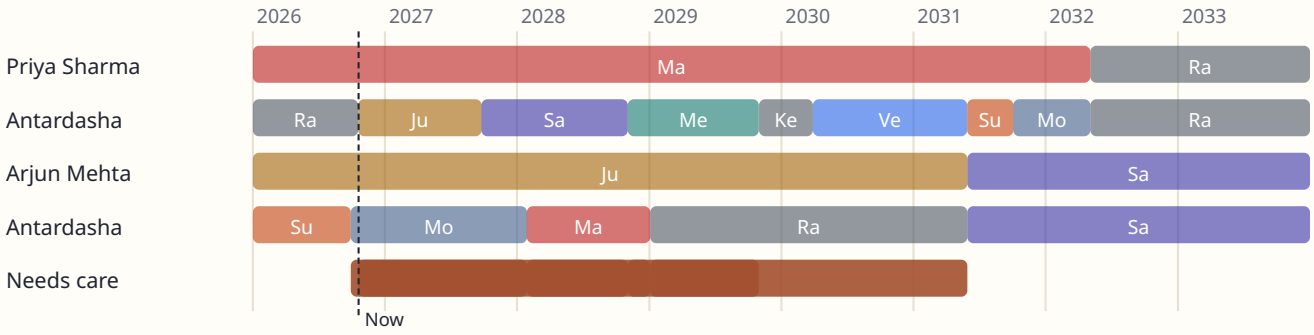

What protects your marriage

- Strong Jupiter provides moral compass and dharmic protection for the marriage
- Well-fortified 2nd house supports family longevity
- KP Status Anchor: 7th Cusp Sub-Lord links to 10th house (Social Status), anchoring the relationship in public duty rather than private desire
- Gajakesari Yoga: Jupiter-Moon connection provides emotional stability, wisdom, and strong mental self-control
- 2nd Lord (family longevity) is exceptionally strong and dignified
- Dharma-Karmadhipati Yoga: Strong sense of purpose and public duty prevents impulsive relationship decisions

The period that needs the most care: 2029

In 2029, when Priya Sharma will be 33 and Arjun Mehta 34, both of your dashas press on the 7th house at once. Plan fewer big changes that year, keep time for each other, and talk problems through early. It is a time to be careful, not a prediction.

The years that need care

Red marks the periods that need extra patience. They are times to slow down, not predictions.

Period	Why	What helps
Sep 2026 – Jan 2028	Arjun Mehta in Jupiter-Moon Major/Minor period.	Prioritize mature dialogue and avoid making irreversible life changes.

Period	Why	What helps
Oct 2026 – Nov 2028	Priya Sharma in Mars-Jupiter Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict.
Jan 2028 – Jan 2029	Arjun Mehta in Jupiter-Mars Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict.
Nov 2028 – Oct 2029	Priya Sharma in Mars-Mercury Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict.
Jan 2029 – May 2031	Arjun Mehta in Jupiter-Rahu Major/Minor period.	Rahu triggers illusions; double-check suspicion against reality.

Health and longevity indicators for each other: Stable. Longevity patterns appear generally stable.

A closer reading written with AI from the chart above

Across both charts, strain reads medium, 43% as the app measures it once your protections are counted. Most of it comes from Priya's chart, at 60%: her 7th lord in the 12th house, Rahu in her 7th and her 2nd lord in the 12th. Arjun's chart, at 25%, adds a debilitated 7th lord and an afflicted Venus.

The protection is equally real: Priya's strong Jupiter and Gajakesari yoga, Arjun's dignified 2nd lord and Dharma-Karmadhipati yoga, and a KP anchor in duty and reputation. The period that needs the most care is 2029, when both of your dashas press on the 7th house together. Plan fewer big changes that year and keep time for each other; it is a time to be careful, not a prediction.

What helps

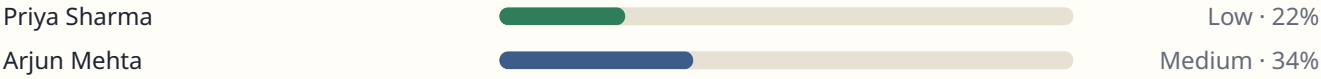

- In the periods marked red, slow down big decisions and talk more, not less.
- Agree early how you will handle money, in-laws and personal space; most strain starts there.
- Lean on what protects you: the strengths listed above are as real as the pressure points.

Will trust be an issue between us?

Where trust is tested, and what keeps it

> **Trust indicators across both charts: Medium (37%). Astrology can show the situations that test trust; it cannot tell you what a person will choose.**

Trust indicators in each chart on its own.

What each method says

- **Parashari (D1)**
  Low for Priya Sharma, Medium for Arjun Mehta
- **KP 5-8-12 — Arjun Mehta**
  The 5th cusp sub-lord Jupiter partially connects to the affair combination (signifying houses 12, 8). Some tendency toward romantic complications exists.
- **KP protection**
  The sub-lords of key houses (7, 9, 10) link to Dharma (9th) or Reputation (10th). This provides a strong structural protection against impulsive or unconventional actions. Exceptional moral anchoring detected. No strong 9-10 KP protection found at the cuspal sub-lord level. Relationship stability depends more on personal effort and D1/D9 factors.

Where it is most likely to be tested

Setting	In whose chart	How clear	Why it matters
At work	Priya Sharma	High	Close bonds can form with colleagues under pressure.
While travelling	Priya Sharma	Medium	Distance from home lowers the usual guard.
Close to home	Arjun Mehta	Medium	Familiar people nearby.
Through money matters	Arjun Mehta	Medium	Secrecy around money can wear trust down.
While travelling	Arjun Mehta	Medium	Distance from home lowers the usual guard.

What the chart shows — Priya Sharma

- Planets in 12th house suggest a private/isolated sphere where secret bonds can form.
- 5th Lord in 10th House (Romance in Career) + KP: 7th Cusp Sublord links to 6/10

- 7th Lord in 9th/12th (Partner from Travel/Foreign)

What the chart shows — Arjun Mehta

- History & Capacity: Venus-Rahu connection creates intense, sometimes unconventional romantic curiosity.
- History & Capacity: Restless mind (Moon-Mercury) suggests a need for high intellectual stimulation in love.
- 7th Lord in 3rd House (Partner is Neighbor/Local)
- + 7th Lord in 2nd/11th of D2 (Hora)
- + KP: 7th Cusp Sublord links to 9/12

What keeps trust strong

- KP Dharmic Alignment: 7th Cusp Sub-Lord connects to the 9th House of Dharma, indicating that righteousness is a core value in relationships.
- Atmakaraka Nobility: The Soul Significator (Jupiter) is a natural benefic, indicating a soul that naturally rejects deceit
- Strong Jupiter provides a philosophical/moral anchor, balancing intense passion.
- Saturnine influence brings a strong sense of duty and structural longevity to commitments.

A closer reading written with AI from the chart above

Read together, your charts show trust indicators at a medium level, 37% as the app shows it: 22% for Priya and 34% for Arjun. The settings that could test trust are the workplace and travel for Priya, and travel, money and people close to home for Arjun.

Strong protections stand against this: Priya's powerful Jupiter, a 7th cusp sub-lord tied to the 9th house of dharma, and Arjun's Jupiter as Atmakaraka, a soul that rejects deceit. Sharing your work and travel lives openly, and being transparent about money, is the most practical way to keep trust easy.

What helps

- Keep the settings above in plain view: share your work and travel life with each other.
- Name small hurts early; distance grows in silence.
- Agree together what privacy and openness mean for you, before it is tested.

Which yogas and doshas does each of us carry?

Read from each birth chart on its own

> **2 doshas are active across your two charts, balanced by the supportive yogas shown in green.**

Priya Sharma

Yoga or dosha	What it means	Traditional remedy (optional)
Manglik Dosha (Kuja Dosha) (Moderate)	Mars in 12th house creates aggressive energy affecting marriage. Can cause conflicts, delays in marriage, and temperamental clashes with spouse.	Kumbh Vivah (marriage to a pot)
Kaal Sarpa Dosha (Moderate)	6/7 planets between Rahu-Ketu — partial Kaal Sarpa Dosha. Creates karmic obstacles, sudden reversals, and destined patterns in marriage and life events.	Kaal Sarpa Dosha Nivaran Puja at Trimbakeshwar

Arjun Mehta

Yoga or dosha	What it means	Traditional remedy (optional)
Guru Chandal Yoga (Moderate)	Jupiter conjunct Rahu — weakens moral compass and dharmic values. May lead to unconventional choices, questioning traditional values, and ethical dilemmas in relationships.	Jupiter shanti puja

Yogas the risk model weighed

- Arjun Mehta: Guru Chandal Yoga (Moderate). Jupiter-Rahu conjunction weakens moral compass and dharmic values. May lead to unconventional choices in relationships.

A closer reading written with AI from the chart above

Priya carries two moderate doshas, Manglik from Mars in the 12th house and a partial Kaal Sarpa pattern, balanced by three supportive yogas: Gajakesari, Hamsa and Dharma-Karmadhipati. Arjun carries no marriage dosha, and his chart holds Gajakesari, Kalatra and Dharma-Karmadhipati yogas.

Arjun's chart also shows Guru Chandal yoga, Jupiter with Rahu, which the risk model weighs as a tendency towards unconventional choices. In practice it asks for clear shared values. Together, the supportive yogas in both charts are stronger than the doshas.

What helps

- A dosha describes a tendency to work with, not a verdict on the match.
- Remedies are traditional and optional; choose with an astrologer you trust, and pay for nothing you do not want.

What will we fight about?

The likely areas of disagreement, so you can talk about them first

> **Your charts point to 3 areas where you may disagree. Every couple disagrees; knowing where is what lets you talk about it early.**

Area	What it means	From
Ancestral/Genetic Friction (Nadi)	Shared physiological temperaments can lead to health-related stress or progeny-related concerns.	Nadi Dosha detected in Ashtakoot Milan.
In-law Boundary Challenges (Arjun Mehta's influence)	Arjun Mehta's planetary energy in Priya Sharma's 8th house creates tension with extended family dynamics.	Arjun Mehta's Rahu in Priya Sharma's 8th house of privacy/occult bonds.
Fundamental Value Divergence	A clash between "Deiva" (Divine) and "Rakshasa" (Individuated) temperaments leads to differing life goals.	Gana Dosha (0/6 points) indicates deep-seated ideological differences.

Modern life

- Erratic digital communication style leading to misunderstandings
- Verbal expression may be hindered by external stressors

This marriage will have its share of friction and disagreements — some recurring. The key is not eliminating conflict (impossible in any real relationship) but learning to fight constructively. Arguments that end with understanding rather than wounds are the goal. With awareness, this marriage can be stable and lasting.

A closer reading written with AI from the chart above

Your charts point to two strong areas of disagreement and one moderate one. The strongest is temperament: Priya's Manushya gana and Arjun's Rakshasa gana approach life goals differently, one seeking balance and the other independence. The shared nadi adds friction around health and energy.

The moderate area is family boundaries, because Arjun's Rahu falls in Priya's 8th house. Both of you are balanced in conflict, which is a real strength. Agree early how decisions about family and long-term goals are made, and keep digital messages for logistics, not disagreements.

What helps

- Pick one of these areas each month and talk about it when nothing is wrong.
- Keep messages for plans and news; talk through disagreements face to face.

How will we get on with each other's families?

Good in-law relationship with minor adjustments needed.

- Priya Sharma with Arjun Mehta's family: Good in-law relationship with minor adjustments needed.
- Arjun Mehta with Priya Sharma's family: Good in-law relationship with minor adjustments needed.

A closer reading written with AI from the chart above

Both of you are likely to get on well with each other's families, with minor adjustments. Priya's chart is strongest on respect and status, with her 10th house scoring 85; her 2nd house of family harmony, at 45, is the area that needs patience.

Arjun's chart is more even, at 65 for family harmony and 60 for status. In practice, Priya may need a little more time to feel at home with Arjun's family, and clear boundaries agreed together will help both sides.

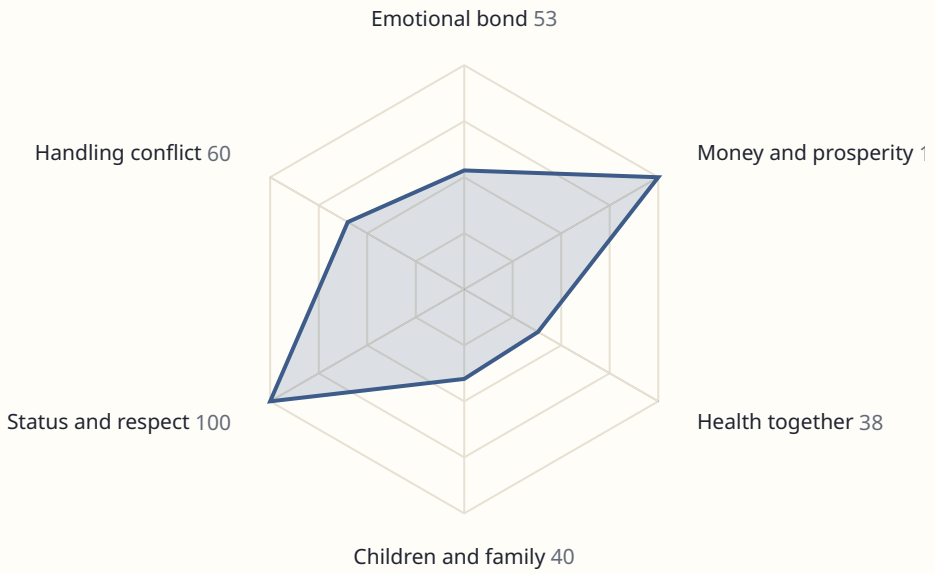

What helps

- Family matters may require patience due to 2nd lord placement.
- Regular communication will strengthen bonds.

What will life after marriage be like?

Six areas, each read from both charts

Strongest: money and prosperity (100). Needs the most care: health together (38).

Each area out of 100; further out is stronger.

Emotional bond: 53 / 100

Uncancelled Mangal — health/energy friction possible · Partner longevity: stable
Overall health & longevity strength: 38/100

Children and family: 40 / 100

Children and family legacy require extra care and conscious effort in this partnership. There may be delays or difficulties with conception, or challenges related to children's health and upbringing. Arguments that end with understanding rather than wounds are the goal. With awareness, this marriage can be stable and lasting.

Conflict severity: High
6 strong protective factors detected
Overall conflict & stability strength: 60/100

A closer reading written with AI from the chart above

Money and status are your strongest areas, both at 100: your charts support financial growth and a respected place in your community, and your ambitions push each other forward. Handling conflict, at 60, is workable with awareness.

Health together, at 38, and children and family, at 40, need the most care, largely because of the shared nadi. Regular health check-ups and medical guidance when planning children are the practical response. The emotional bond, at 53, is warm but uneven, and grows with time set aside for each other.

What helps

- Put time aside for the two of you every week; the emotional bond grows with attention.
- Have regular health check-ups together, and take medical advice early when planning children.
- Build on your strongest areas together; they carry a marriage through the harder ones.

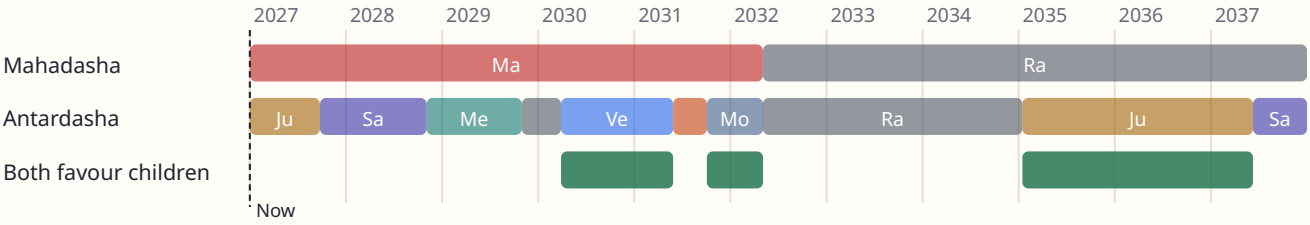

What do our charts say about children?

Both 5th houses, both Saptamsa (D7) charts, Jupiter and the fertility points

> **Your charts support children, with some placements that ask for care, and the shared Nadi asks for a health check before planning.**

Support for children in each chart.

Priya Sharma's dashas, with the periods that favour children in both charts in green.

Priya Sharma: 60 / 100

- **D1 5th house**

- **Putrakaraka (Jaimini)**

Traditional count: 2–3 (Moon, lord of the 5th, has passed 6 navamsas in Sagittarius). A classical count, not a prediction.

Arjun Mehta: 79 / 100

- **D1 5th house**
  Virgo, ruled by Mercury in the 5th house; Mercury in it
- **D7 Saptamsa**
  5th house in Aries, Jupiter in it, Saturn in it, its lord Mars in the 6th, Jupiter in the 5th

  Sagittarius, navamsa Aries
- **Putrakaraka (Jaimini)**
  Saturn in Aquarius, 10th house

Traditional count: 3 or more (Mercury, lord of the 5th, has passed 9 navamsas in Virgo). A classical count, not a prediction.

Both charts favour children
Mar 2030 – May 2031
Oct 2031 – May 2032
Jan 2035 – Jun 2037

Nadi dosha

You share the same Nadi. Tradition links this to the health of children; today the practical step is a pre-conception health check for both of you.

A closer reading written with AI from the chart above

Arjun's chart supports children strongly, at 79: Mercury rules and sits in his 5th house, and his Beeja Sphuta is classically supportive. Priya's chart supports them at 60, with the Moon and Jupiter strong in her 10th house; in her D7 chart Jupiter sits in the 6th house, which asks for patience.

The periods both charts favour are March 2030 to May 2031, late 2031 to 2032 and a longer stretch from 2035. Because you share the same Nadi, the practical step before planning children is a health check for both of you.

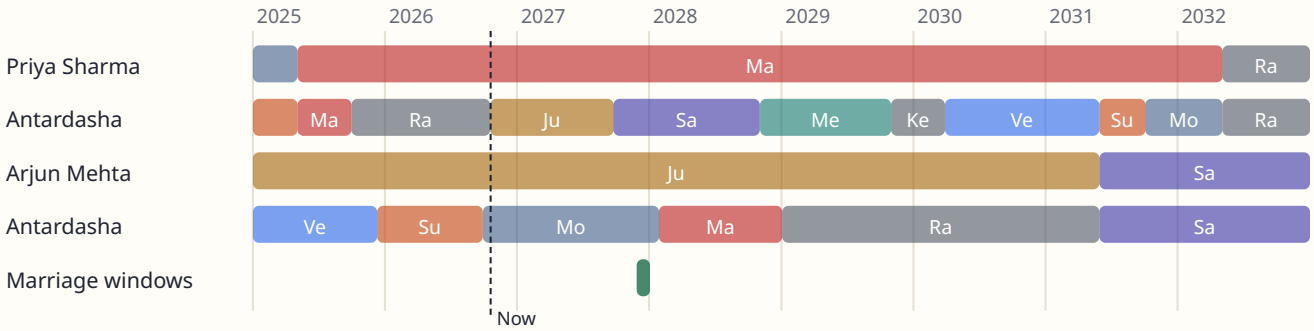

What helps

- Plan around the periods both charts favour, and take medical advice early.
- A pre-conception health check for both of you is the modern answer to Nadi dosha.

When should we marry?

Both dasha sequences, with the windows they share

Your next good joint window is Nov 2027 – Jan 2028.

Each bar is a planetary period; green marks the joint windows; the dashed line is today.

What each method says

- **Vimshottari dasha**
  Next joint window Nov 2027 – Jan 2028
- **Jaimini — Priya Sharma**
  Marriage is likely during the dasha of Pisces (DK), Aries (UL), or their 7th houses. Current period Gemini is neutral for marriage.
- **Jaimini — Arjun Mehta**
  Marriage is likely during the dasha of Libra (DK), Cancer (UL), or their 7th houses. Current period Sagittarius is neutral for marriage.
- **Running periods**
  Priya Sharma: Mars/Jupiter; Arjun Mehta: Jupiter/Moon

Where the methods agree

The years both charts support together: 2027–2028.

Window	Why	Strength
Nov 2027 – Jan 2028	Strong favorable period with good planetary support for marriage	65%

A window is a period, not a date. For the wedding day itself, families usually choose a muhurta within it.

A closer reading

written with AI from the chart above

Your best joint window is November 2027 to January 2028, and both charts support 2027 to 2028 together. Priya is in her Mars period with Jupiter's sub-period running, and Arjun is in his Jupiter period with the Moon's.

Since the vulnerable years discussed earlier begin before this window, a wedding inside it lets you start married life in a supported phase. Choose the exact day with a muhurta within the window.

A closer reading written with AI from the chart above

You both feel secure in relationships and handle conflict in a balanced way, which is a strong base. Your love languages differ: Priya feels loved through quality time, Arjun through physical affection.

Priya talks in an unconventional, ideas-led way and Arjun is precise and analytical, so the same conversation can feel different to each of you. Arjun's growth area is balancing independence with partnership; Priya's is confidence. Give each other love in the other's language, not only your own.

What helps

- Tell each other your love language early; most hurt in marriage is love given in a language the other does not read.

How this report was made

Your birth chart was calculated from your date, time and place of birth using the Swiss Ephemeris and the Lahiri ayanamsa, the standard for Vedic astrology in India. The readings combine four classical methods: Parashari (houses, planets and dashas), Ashtakoot and Porutham matching, KP (Krishnamurti Paddhati) and Jaimini.

The personal note at the start and the readings headed "A closer reading" were written with AI from the calculated chart. Every score, chart, period and placement in the report comes from the calculation itself.

Your yoni natures, Monkey and Tiger, are moderately compatible, and your Mars and Venus placements give a mutual satisfaction score of 65: real chemistry with room to grow. Arjun's desire is described as medium and Priya's as low-key, so pace and tenderness matter.

Arjun's chart shows a medium tendency for erectile difficulty, linked to a weak Sun, and a low tendency for premature ejaculation. Priya's chart shows low tendencies for both low desire and discomfort. These are common and treatable; a doctor, rest and open conversation help far more than worry.

What helps

- Strengthen Sun through Surya Namaskar and lifestyle changes
- Good compatibility with room for exploration and growth
- Different ganas (Manushya vs Rakshasa) - balance energy levels
- Same nadi - watch for health compatibility issues
