A personal note

Written with AI from your chart

Dear Priya, your chart describes someone with a good foundation for marriage: a score of 68 out of 100. That is not a perfect number, and it does not need to be. It means the support is real, and a little care in a few places goes a long way.

The timing is the clearest part of your reading. Your next window opens between January and March 2027, and the years 2027 to 2028 are where two separate methods agree. Your chart points to marriage most likely between the ages of 31 and 32. There are signs of some delay, but delay is not denial; the windows are there.

The person your chart describes is practical, dedicated and helpful: someone who shows love by turning up. An arranged introduction is the more likely path, though the chart also leaves room for someone you meet through a foreign connection or online.

You are Manglik. About one person in three is, and it is weighed against your partner's chart, not on its own. The section on doshas explains what it means and the rules by which it is often cancelled.

If you do one thing after reading this, read the timing chapter and mark the windows ahead. Remedies are listed too, as tradition; take only what feels right to you.

When will I marry?

Your dasha periods, with the windows that support marriage

> **Your next marriage window is 2027 - 2028, and your chart points to marriage most likely between ages 31 and 32.**

Each bar is a planetary period. Green marks the windows that support marriage; the dashed line is today.

What each method says

- **Vimshottari dasha**
  Next window Jan 2027 – Mar 2027
- **Jaimini chara dasha**
  Supports marriage in the dashas of Pisces, Virgo, Aries
- **Jupiter transit**
  Jupiter supports Oct 2026 – Jan 2027
- **KP**
  7th cusp sub-lord Moon: marriage Complicated

Where the methods agree

Vimshottari and Jaimini both point to 2027–2028, 2028–2029. When two independent methods agree, the timing is more reliable.

Window	Planetary period	Strength
Jan 2027 – Mar 2027	Mars-Jupiter-Mercury	25%
Sep 2027 – Nov 2027	Mars-Saturn-Saturn	25%
Nov 2027 – Jan 2028	Mars-Saturn-Mercury	35%
Jan 2028 – Feb 2028	Mars-Saturn-Ketu	25%
Feb 2028 – Apr 2028	Mars-Saturn-Venus	30%
Apr 2028 – May 2028	Mars-Saturn-Sun	25%
May 2028 – Jun 2028	Mars-Saturn-Moon	25%
Jun 2028 – Jul 2028	Mars-Saturn-Mars	25%

The milestones, as your chart sees them

When you meet	Within 2027 - 2028
When you decide	6-12 months after meeting
The wedding	Favorable months in the same year

A window is a period when the chart supports marriage, not a date. Charts name windows; anyone naming an exact date is guessing.

A closer reading written with AI from the chart above

Priya, you are in a Mars period with Jupiter's sub-period running, which your chart reads as a time of momentum. The strongest support for marriage arrives in 2027 and 2028, when the Mars period hands its sub-periods to Mercury and Saturn and both activate your 2nd house of family.

Two independent methods, Vimshottari and Jaimini, agree on 2027 to 2028, so treat these years as your main window. The months your chart favours are February to March, June to July and November to December. Introductions made in those months are the ones most likely to move forward.

What helps

- Use the green windows for introductions and meetings; this is when effort tends to bear fruit.
- If a proposal comes outside a window, it is not ruled out — the windows show support, not permission.
- For the wedding day itself, families usually choose a muhurta inside a window.

Will my marriage be delayed?

> **There are 2 signs of some delay in your chart. Delay is common, and it is not denial.**

Signs of delay **2 found**

On time Delayed

- Rahu in 7th house may create delays or unconventional matches
- 7th lord in 12th house (loss) may delay marriage

The main cause: Rahu in 7th house may create delays or unconventional matches

A closer reading written with AI from the chart above

Two placements explain why things may take a little longer: Rahu sits in your 7th house, and the lord of your 7th house sits in the 12th. Rahu tends to bring unconventional matches or a slower, less straightforward path; the 12th house adds distance.

None of this denies marriage. It usually means the right person comes from a wider circle than expected, often someone from a different place or background. Your next window, 2027 to 2028, is close, so this is a matter of where you look more than how long you wait.

What helps

- Strengthen 7th house through remedies
- Perform Saturn pacification if applicable
- Regular worship of marriage deities
- Widen the circle you meet people through during your windows; delay often ends with a change of setting.

Am I ready for marriage?

Ten checks from your chart, weighted as in the app

Readiness: 80%, highly ready. 8 of 10 checks pass.

Readiness

Check	Your chart	Result
Marriage potential above 50	68 / 100	Passes
7th house strength above 50	40 / 100	Not yet
Navamsa quality above 50	50 / 100	Passes
A supportive dasha is running	50 / 100	Passes
A marriage window is identified	2027 - 2028	Passes
No more than one sign of delay	2 found	Not yet
Emotional wellbeing is steady	strong	Passes
Habits are not a concern	moderate	Passes
No severe dosha	0 severe	Passes
Marriage quality is not low	high	Passes

A closer reading written with AI from the chart above

Priya, eight of the ten readiness checks pass, which puts you at 80%: highly ready. Your marriage potential, Navamsa, running dasha, emotional wellbeing and the coming 2027 to 2028 window all count in your favour, and no dosha in your chart is severe.

The two checks that do not pass yet are worth knowing. Your 7th house scores 40 out of 100, because its lord sits in the 12th, and your chart shows two signs of delay. Neither stops a marriage; they explain why choosing carefully, and from a wider circle, matters for you.

What helps

- Work on: 7th house strength above 50 (40 / 100). The chapters that follow explain it.
- Work on: no more than one sign of delay (2 found). The chapters that follow explain it.

What will my spouse be like?

Read from your 7th house, Navamsa, Darakaraka and Upapada

Practical and detail-oriented with a Rahu influence.

Their strongest qualities, strongest first.

Who they are

Values	Family, Stability, Growth
Communication	Articulate and engaging
Emotional nature	Mental rather than emotional
Work	Technology, Innovation or Foreign Trade
Work style	Unconventional career working with modern technology or global markets.
Ambition	Medium

How they look

Height and build	average, slim
Complexion	fair
Face	Oval
Features	Pleasant smile, Youthful appearance, Expressive face, Intelligent eyes
Style	modern and professional
First impression	confident and approachable

What each method says

Method	What it shows
7th house (Parashari)	Virgo rising, ruled by Mercury. Practical and detail-oriented with a Rahu influence.
Navamsa 7th house	Aries: 7th House in Aries indicates a partner with Mars-like qualities.
Darakaraka (Jaimini)	Saturn in Pisces. Spouse significantly impacts self-identity; partner is very independent.
Upapada Lagna (Jaimini)	Aries as UL indicates spouse from dynamic, action-oriented background.

What draws them to you

Your husband is attracted to your adventure & optimism. Jupiter in Sagittarius indicates he values open-mindedness, philosophical depth in a partner. Your tall, distinguished look appeals to him physically.

A closer reading written with AI from the chart above

Your 7th house is Virgo, ruled by Mercury, so the person your chart describes is practical, careful with details and quick with words. Rahu in the same house adds something unusual: a partner with a modern or international side, perhaps working in technology or trade across borders.

Saturn as your Darakaraka, placed in Pisces, adds depth and a quiet sense of duty; this is someone who takes commitment seriously and keeps their own independence. The Navamsa 7th in Aries brings energy and directness, so expect warmth that shows up in action more than in words.

What helps

- Use this as a description of temperament to recognise, not a checklist to measure people against.

How will we meet — love or arranged?

Arranged marriage likely, though personal preferences will be considered.

Love or arranged **Arranged**

Arranged Love

Most likely through	Foreign land, spiritual retreat
Also possible	Online/social media, Foreign country
Direction	North, or South
Distance	Foreign/distant land. Strong indication of spouse from abroad.
Setting	Unconventional or foreign
Mood of the meeting	Surprising, mysterious

The yogas behind it

Yoga	In your chart
Venus-Moon Association	Not present
Venus-Mars Association	Not present
Venus-Rahu Association	Present
5th-7th House Association	Not present
1st-7th House Association	Not present
Rahu on 5th/7th	Present
Venus in 5th House	Not present
Moon in 7th House	Not present

A closer reading written with AI from the chart above

Your chart leans towards an arranged introduction in which your own preferences still count. The meeting is most likely connected with a distant place, travel or a spiritual setting, rather than your immediate neighbourhood.

Venus with Rahu and Rahu on your 7th house add an element of surprise: the introduction may come through an unexpected route, such as a family contact abroad or someone met while travelling. Keep your family informed and say yes to invitations outside your usual circle.

Am I Manglik? Which doshas and yogas do I have?

> **2 doshas are active: Manglik Dosha (Kuja Dosha), Kaal Sarpa Dosha. 3 supportive yogas balance them.**

Manglik Dosha (Kuja Dosha) — Moderate

Mars in 12th house creates aggressive energy affecting marriage. Can cause conflicts, delays in marriage, and temperamental clashes with spouse.

Kaal Sarpa Dosha — Moderate

6/7 planets between Rahu-Ketu — partial Kaal Sarpa Dosha. Creates karmic obstacles, sudden reversals, and destined patterns in marriage and life events.

About one person in three is Manglik, and many cases are cancelled by other placements: Mars in its own or exalted sign, Jupiter or Venus aspecting, or a partner who is also Manglik. It describes a temperament, not a fate. In a match, it is weighed together with your partner's chart.

Yogas that support your marriage

Yoga	What it means
Gajakesari Yoga	Jupiter in 10th house (conjunction from Moon in 10th) — one of the most powerful auspicious yogas for marriage and overall fortune
Hamsa Yoga	Jupiter in Sagittarius (own) in 10th house — Hamsa Yoga (Pancha Mahapurusha Yoga) indicating wisdom, spirituality, and excellent marital prospects
Dharma-Karmadhipati Yoga	Jupiter in 10th house in own dignity — strong dharmic foundation supporting marriage

A closer reading written with AI from the chart above

You carry a moderate Manglik dosha from Mars in your 12th house, and a partial Kaal Sarpa pattern because six of your seven planets fall between Rahu and Ketu. In plain words: strong energy that needs an outlet, and a life that tends to move in phases rather than evenly.

Three supportive yogas balance this. Gajakesari and Hamsa yogas come from a strong Jupiter, and Dharma-Karmadhipati yoga links purpose and work. Mars in the 12th is one of the milder Manglik placements, and in a match it is weighed against your partner's chart.

What helps

- Kumbh Vivah (marriage to a pot) (traditional, optional)
- Mangal Shanti Puja (traditional, optional)
- Kaal Sarpa Dosha Nivaran Puja at Trimbakeshwar (traditional, optional)
- Rahu-Ketu shanti homa (traditional, optional)

How do I love?

Your emotional style in a relationship

You set a high bar, and few clear it.

Attachment	You generally feel secure in relationships
Love language	Quality Time, then Words of Affirmation
What you need most	Freedom and adventure
Romantic style	Passionate and spontaneous
How you talk	Unconventional and intellectual
In a disagreement	Balanced approach to conflict
What hurts you	Dishonesty, Disrespect

The pattern underneath

You do not hand your heart over easily, and that has protected you. It has probably also cost you people who were right but arrived at the wrong moment. The pattern to watch: mistaking caution for discernment. Before you marry, notice whether you are choosing them — or just finally allowing someone in. What shapes this: Venus in Aries (intense in affection); Moon in Purva Ashadha nakshatra (romantic by nature).

Blind spot	Being too idealistic about partners
Where you can grow	Building self-confidence and visibility
A pattern to notice	Balanced approach to romance
Your deepest fear	Fear of imperfection

A closer reading written with AI from the chart above

You feel secure in love, and quality time is how you give and notice care. At the same time you need freedom and adventure, so the right partner gives you closeness without closing doors. You do not hand your heart over easily, and that caution has protected you.

The blind spot your chart points to is idealism: expecting a partner to match a picture before you have let them in. Venus in Aries makes you intense in affection once you choose. Notice whether you are choosing someone, or simply waiting for certainty that never quite arrives.

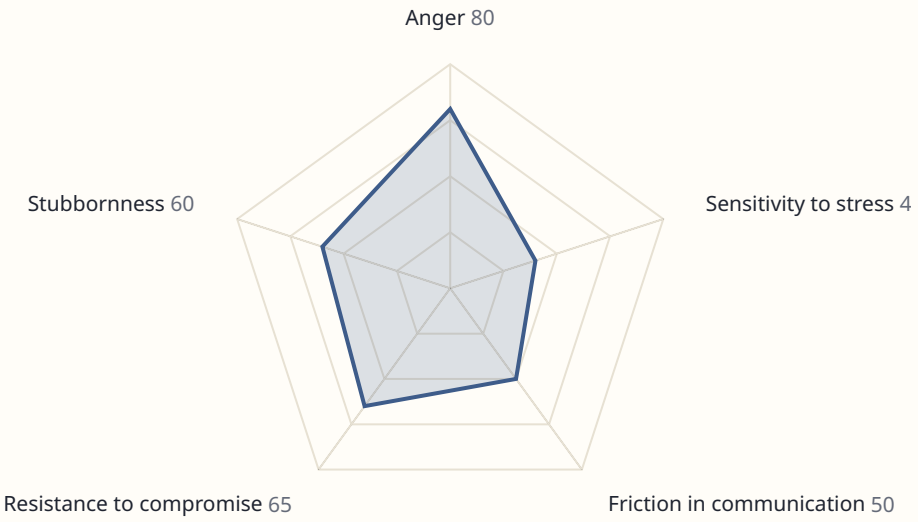

What helps

- Practice self-awareness and conscious relationship choices
- Tell a partner your love language early; most hurt in marriage is love given in a language the other does not read.

How do I handle conflict?

Anger, stress, communication, compromise and stubbornness

Overall intensity 59 / 100: moderate. Your strongest tendency is anger.

Each tendency out of 100; further out is stronger.

Tendency	Why	What helps
Anger: 80	Mars in the 12th house: a quick temper	Cool down before deciding anything; slow breathing helps.
Sensitivity to stress: 40	Moon in Sagittarius: emotionally resilient	Good tolerance; a steady routine keeps it that way.
Friction in communication: 50	Mercury in Aquarius	Use your clarity to settle disagreements early.
Resistance to compromise: 65	Venus needs support for diplomacy; Jupiter's placement can make you rigid	Let small things go; choose the few that matter.
Stubbornness: 60	4 planets in fixed signs	Flexible; still stand firm on what matters to you.

A closer reading written with AI from the chart above

Your overall conflict intensity is 59 out of 100, in the moderate range. The strongest tendency is anger, at 80: Mars in your 12th house tends to hold frustration in until it comes out suddenly. Resistance to compromise, at 65, and stubbornness, at 60, add to it.

Your Moon in Sagittarius keeps you resilient under stress, and that is your best tool. Say what bothers you early, while it is still small, and give yourself a pause before any decision made in anger. Choosing which disagreements truly matter will save you many of the others.

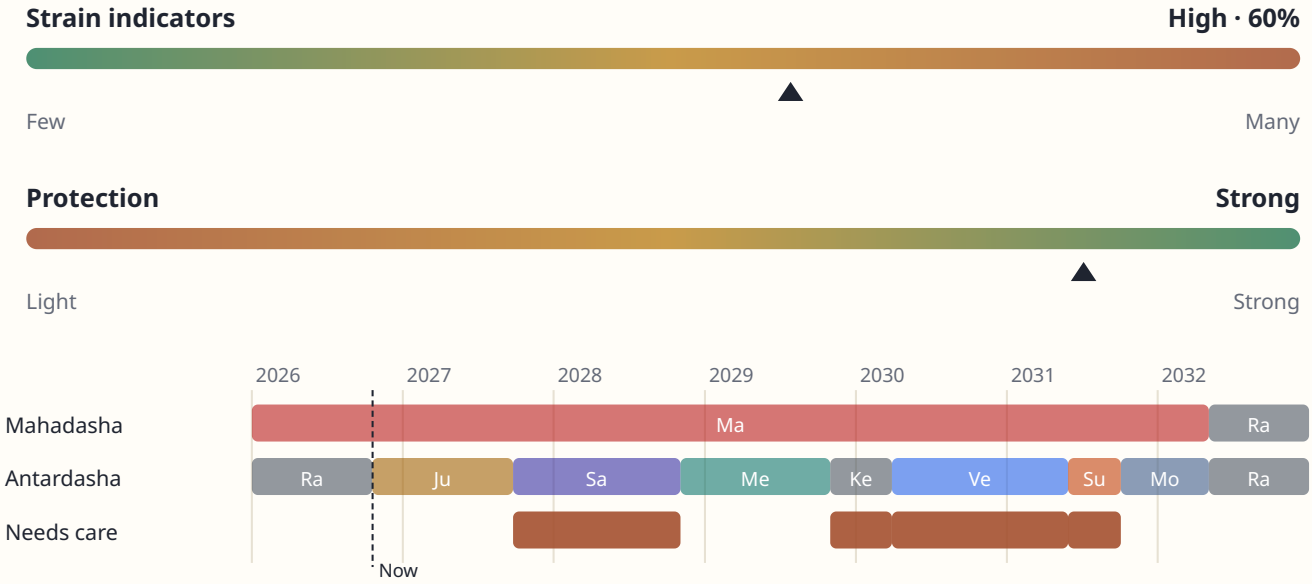

What helps

- Cool down before deciding anything; slow breathing helps.
- Let small things go; choose the few that matter.

Will my marriage be stable?

Strain and protection in your chart, and the years that need care

> **Strain indicators in your chart: High (60%). Protection: strong. These describe pressure points to manage, not how a marriage turns out.**

Red marks the periods that need extra patience.

What each method says

- **Parashari (D1)**
  4 strain indicators, mainly around the 7th house
- **Navamsa (D9)**
  Inner marriage quality 50 / 100
- **KP**
  7th cusp sub-lord Moon: Complicated
- **Jaimini (Upapada)**
  UL in Aries indicates a stable marriage with spouse from dynamic, action-oriented background.

What creates strain

- 7th Lord in 6th, 8th, or 12th house: Marriage significator in dusthana houses indicates conflict, obstacles, or losses
- 2nd Lord in 12th house: Family harmony compromised
- Rahu in 7th house: Separative influence on marriage
- 7th Lord in 12th house: Potential for loss or "Marana" energy affecting partnership

What protects your marriage

- Strong Jupiter provides moral compass and dharmic protection for the marriage
- Well-fortified 2nd house supports family longevity
- KP Status Anchor: 7th Cusp Sub-Lord links to 10th house (Social Status), anchoring the relationship in public duty rather than private desire
- Gajakesari Yoga: Jupiter-Moon connection provides emotional stability, wisdom, and strong mental self-control

Period	Why	What helps
Sep 2027 – Nov 2028	Priya Sharma in Mars-Saturn Major/Minor period.	Saturn brings coldness; consciously choose warmth and patience. Mars triggers impulses; wait 24 hours before escalating any conflict.
Oct 2029 – Mar 2030	Priya Sharma in Mars-Ketu Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict. Ketu causes detachment; schedule regular "quality connection" rituals.
Mar 2030 – May 2031	Priya Sharma in Mars-Venus Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict.
May 2031 – Oct 2031	Priya Sharma in Mars-Sun Major/Minor period.	Mars triggers impulses; wait 24 hours before escalating any conflict.

Spouse's health and longevity indicators: Moderate. Some moderate indicators of health or longevity challenges for spouse; balance is required.

A closer reading written with AI from the chart above

Your chart shows strain at a high level, 60% as the app measures it, mainly around the 7th house: its lord sits in the 12th, Rahu occupies it, and your 2nd lord is in the 12th too. These describe pressure points, such as distance, family adjustment and unusual circumstances, rather than how a marriage turns out.

The protection is strong and real. Jupiter is powerful in your chart and forms Gajakesari yoga with the Moon, giving emotional steadiness, and your 7th cusp sub-lord anchors the marriage in duty and reputation. The years that ask for patience are late 2027 to 2028 and late 2029 to 2031, when Saturn, Ketu, Venus and the Sun run within your Mars period.

What helps

- Choose a partner whose chart supports your 7th house; the compatibility report shows this for a specific person.
- In the periods marked red, slow down big decisions and talk more, not less.
- Agree early how you will handle money, in-laws and space; most strain starts there.

Will trust be an issue in my marriage?

Where trust is tested, and what keeps it

> **Trust indicators: Medium (30%). Astrology can show the situations that test trust; it cannot tell you what a person will choose.**

Situations that test trust **Medium · 30%**

Few Many

What each method says

- **Parashari (D1)**
  3 indicators in your chart
- **KP workplace link**
  The 2-6-10 workplace house sub-lords do not significantly connect to romance or relationship houses. Workplace affairs are unlikely from a KP perspective.
- **KP protection**
  The sub-lords of key houses (7, 9, 10) link to Dharma (9th) or Reputation (10th). This provides a strong structural protection against impulsive or unconventional actions. Exceptional moral anchoring detected.

Where it is most likely to be tested

Setting	In your chart	Why it matters
At work	Yes	Close bonds can form with colleagues under pressure.
While travelling	Yes	Distance from home lowers the usual guard.
In private circles	Yes	Bonds formed away from others' view.
Close to home	No	Familiar people nearby.

- Planets in 12th house suggest a private/isolated sphere where secret bonds can form.
- 5th Lord in 10th House (Romance in Career) + KP: 7th Cusp Sublord links to 6/10
- 7th Lord in 9th/12th (Partner from Travel/Foreign)

Patterns to know about

Pattern	How strong	What helps
Workplace Connection Vulnerability	Severe	Maintain strict professional boundaries. Avoid exclusive private communication channels with colleagues of the opposite sex.
Travel & Foreign Connection Vulnerability	Moderate	Establish clear communication protocols with your partner when traveling alone. Avoid isolated social situations in foreign environments.

Pattern	How strong	What helps
Hidden/Isolated Connection Pattern	Moderate	Ensure that the need for privacy does not become secrecy.

What keeps trust strong

- Titan Jupiter: A powerful Jupiter grants deep wisdom and a natural moral compass that inherently rejects deceit.
- KP Dharmic Alignment: 7th Cusp Sub-Lord connects to the 9th House of Dharma, indicating that righteousness is a core value in relationships.
- Strong Jupiter provides a philosophical/moral anchor, balancing intense passion.
- Saturnine influence brings a strong sense of duty and structural longevity to commitments.

A closer reading written with AI from the chart above

Trust indicators in your chart are at a medium level, 30% as the app shows it. The settings that could test trust are the workplace, through the 5th lord in your 10th house, and travel, through the 7th lord in the 12th. The planets in your 12th house also point to a private side that you keep to yourself.

What keeps trust strong is clear: a powerful Jupiter that rejects deceit, a 7th cusp sub-lord connected to the 9th house of dharma, and Saturn's sense of duty. The KP affair formula is not active in your chart. Openness about work and travel is the simple habit that protects you most.

What helps

- Keep the settings marked "Yes" in plain view: share your work and travel life with your partner.
- Name small hurts early; distance grows in silence.

How is my emotional wellbeing?

Tendencies to know about, and your strengths

> **Overall mental health indicators are positive. Emotional resilience and coping capacity appear strong.**

Your emotional strengths

Strong Jupiter Dignity: Jupiter in Sagittarius gives natural wisdom, ethical grounding, and a resilient positive outlook that protects against mental health challenges. Moon in Angular House: Moon in the 10th house (angular/kendra) provides emotional stability and prominence. Feelings are integrated into identity and worldly functioning.

Area	Reading
Low mood	1 indicator(s) suggest vulnerability to depressive patterns. Key themes include emotional suppression, self-criticism, and difficulty processing feelings.
Worry and anxiety	No significant anxiety indicators. Mental processing appears balanced.
Personality patterns	1 personality pattern indicator(s) detected. These suggest deep-seated psychological dynamics that influence how this person relates in intimate partnerships.
Feeling detached or overwhelmed	1 indicator(s) suggest potential for dissociative or deep psychological distortion patterns. These require careful emotional grounding.
Emotional steadiness	Emotional stability appears strong. This person can generally manage stress and intense feelings effectively.

These are astrological pattern indicators, not clinical diagnoses. If you are struggling, a doctor or counsellor can help; in India you can call the Tele-MANAS helpline on 14416, free, at any hour.

A closer reading written with AI from the chart above

Overall your emotional resilience is strong. Jupiter in its own sign of Sagittarius gives you a positive, grounded outlook, and the Moon in the 10th house ties your feelings to purpose and work. There is a moderate tendency towards low mood and towards feeling overwhelmed at times.

These tendencies usually show when you carry too much alone or when work takes over. Sleep, daylight and one person you can talk to openly steady the Moon more than anything else. If a low period lasts, reaching out early makes it much easier to turn around.

What helps

- Sleep, daylight and movement steady the Moon more than any ritual.
- Talk to someone early when a low period starts; it is easier to turn around.

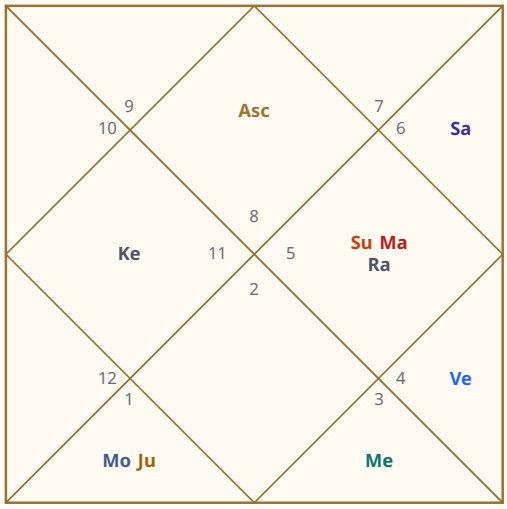

What does my chart say about children?

Your 5th house, the Saptamsa (D7), Jupiter and the classical fertility point

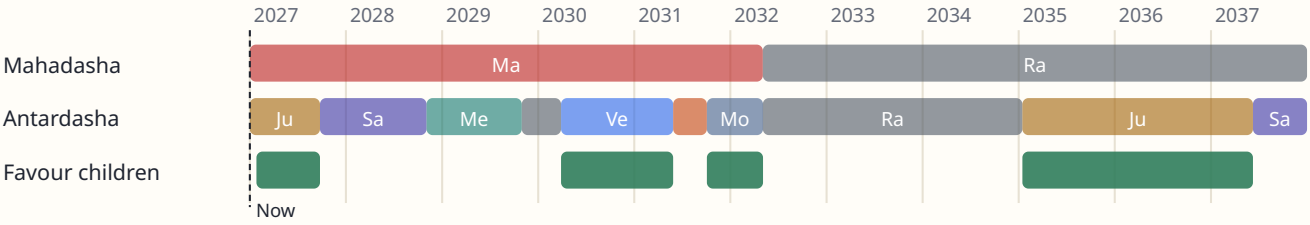

> **Your chart supports children, with a few placements that ask for patience or care.**

Support for children

Saptamsa (D7) — children

Green marks the periods of your 5th lord, Jupiter and Putrakaraka after your marriage window: the years that favour children.

What each method says

- **D1 5th house**
  Cancer, ruled by Moon in the 10th house
- **D7 Saptamsa**
  5th house in Pisces, its lord Jupiter in the 6th
- **Jupiter (natural significator of children)**
  In Sagittarius, 10th house; in the D7, 6th house
- **Kshetra Sphuta**
  Leo, navamsa Taurus
- **Putrakaraka (Jaimini)**
  Venus in Aries, 2nd house

What supports children

- Moon, lord of the 5th, in the 10th house, a supportive house
- Jupiter in the 10th house

What asks for care

- In the D7 chart, Jupiter sits in the 6th house

Period	Planet
Jan 2027 – Sep 2027	Jupiter
Mar 2030 – May 2031	Venus
Oct 2031 – May 2032	Moon
Jan 2035 – Jun 2037	Jupiter

A traditional count: 2–3

Moon, lord of the 5th, has passed 6 navamsas in Sagittarius. This is a classical count, not a prediction: today, health and your own choices decide.

Jupiter is the natural significator of children for everyone. The Putrakaraka is the Jaimini significator, the planet with the sixth-highest degree in your chart, and is often a different planet.

A closer reading written with AI from the chart above

Your chart supports children, scoring 60 out of 100. The lord of your 5th house, the Moon, sits in the strong 10th house, and Jupiter, the natural significator of children, sits there too. The one placement that asks for patience is in the D7 chart, where Jupiter falls in the 6th house.

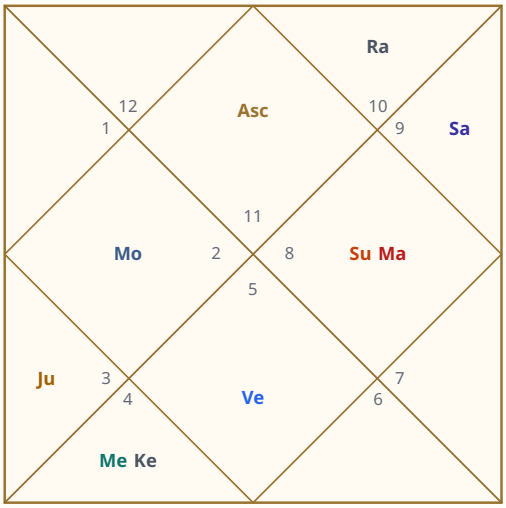

Your Kshetra Sphuta, the classical fertility point for women, is mixed rather than weak. The periods that favour children are early 2027, March 2030 to May 2031 and late 2031 to 2032, with a longer Jupiter period from 2035. If children are a priority, plan around these years and take medical advice early.

What helps

- If children are a priority, plan around the green periods, and take medical advice early rather than late.
- Strengthening Jupiter is the traditional remedy for the 5th house: respect for teachers, and giving on Thursdays (optional).

How will career and money go after marriage?

Unconventional career working with modern technology or global markets.

Dasamsa (D10) — career

2nd — family wealth		23 bindus
7th — partnership		26 bindus
10th — career		39 bindus
11th — gains		27 bindus

Ashtakavarga strength of the houses for money and work (28 or more is strong).

Amatyakaraka (Jaimini career guide): Mars in Aquarius. Mars guides professional life and provides advice. Career success comes through its significations.

Spouse's likely field	Technology, Innovation or Foreign Trade
Spouse's work	Self-Employed

A closer reading written with AI from the chart above

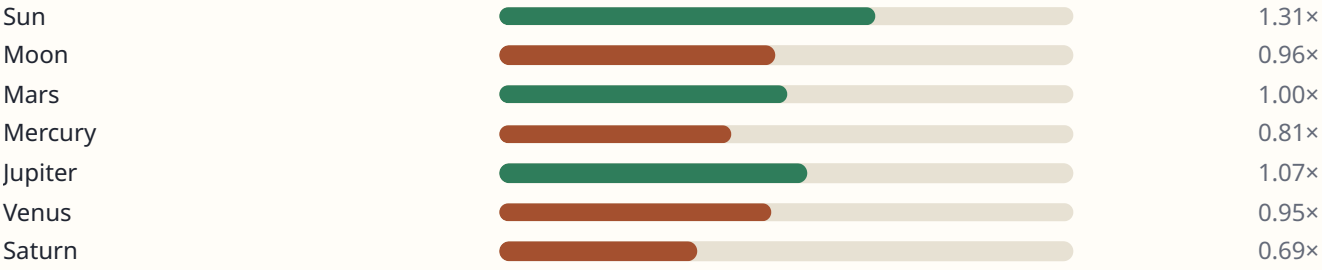

Your 10th house is very strong at 39 Ashtakavarga bindus, well above the 28 that marks strength, so career and reputation are among your chart's best supports. Mars as Amatyakaraka in Aquarius points to work with technology, systems or innovation.

Your 2nd house of family wealth is weaker at 23 bindus, so savings need deliberate habits rather than luck. Your spouse's likely field is technology or foreign trade, which suits a household where both careers move forward together.

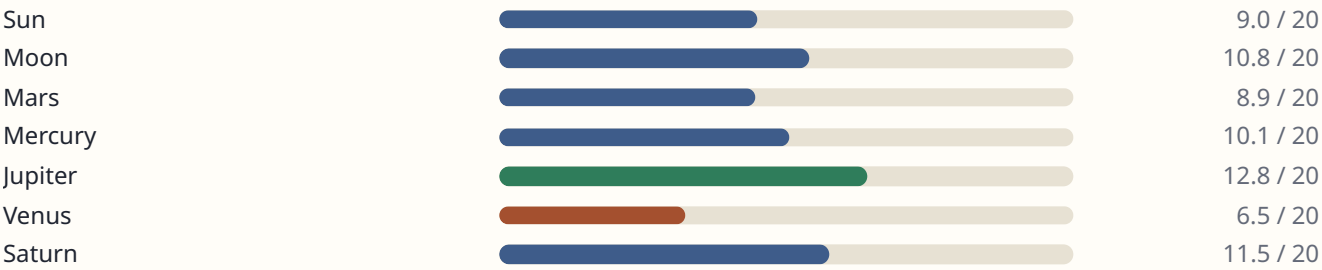

Which planets are strongest for me?

Shadbala, Vimshopaka and Ashtakavarga

Sun and Jupiter are your strongest planets; Saturn needs the most support.

Shadbala: strength against what each planet needs (1.00× or more is strong).

Vimshopaka: strength across the divisional charts.

In Shadbala, the Sun and Jupiter are your strongest planets, which gives you confidence, ethics and the ability to lead. Saturn and Mercury need the most support: patience and careful communication take conscious effort for you.

Your 7th house has 26 Ashtakavarga bindus, just below the strong mark of 28, so marriage is supported but asks for care. Jupiter also leads your Vimshopaka score at 12.8 out of 20, confirming it as the planet that protects your chart across the divisional charts.

How this report was made

Your birth chart was calculated from your date, time and place of birth using the Swiss Ephemeris and the Lahiri ayanamsa, the standard for Vedic astrology in India. The readings combine four classical methods: Parashari (houses, planets and dashas), Ashtakoot and Porutham matching, KP (Krishnamurti Paddhati) and Jaimini.

The personal note at the start and the readings headed "A closer reading" were written with AI from the calculated chart. Every score, chart, period and placement in the report comes from the calculation itself.

A closer reading written with AI from the chart above

Your chart describes a romantic style that is passionate and spontaneous, from Venus in Aries, alongside a gentler, more private side from Mars in the 12th house. Desire is described as low-key rather than intense, and closeness grows with trust.

The two tendencies the chart checks for women, low desire and discomfort during intimacy, are both low. Your strongest emotional need is freedom, so intimacy works best when it feels chosen rather than expected, and talking openly matters more than any chart reading.

What helps

- Focus on emotional intimacy and quality over quantity
- Create romantic settings that help you relax and connect
